# RSN SHOW PREVIEW

Derby Arena

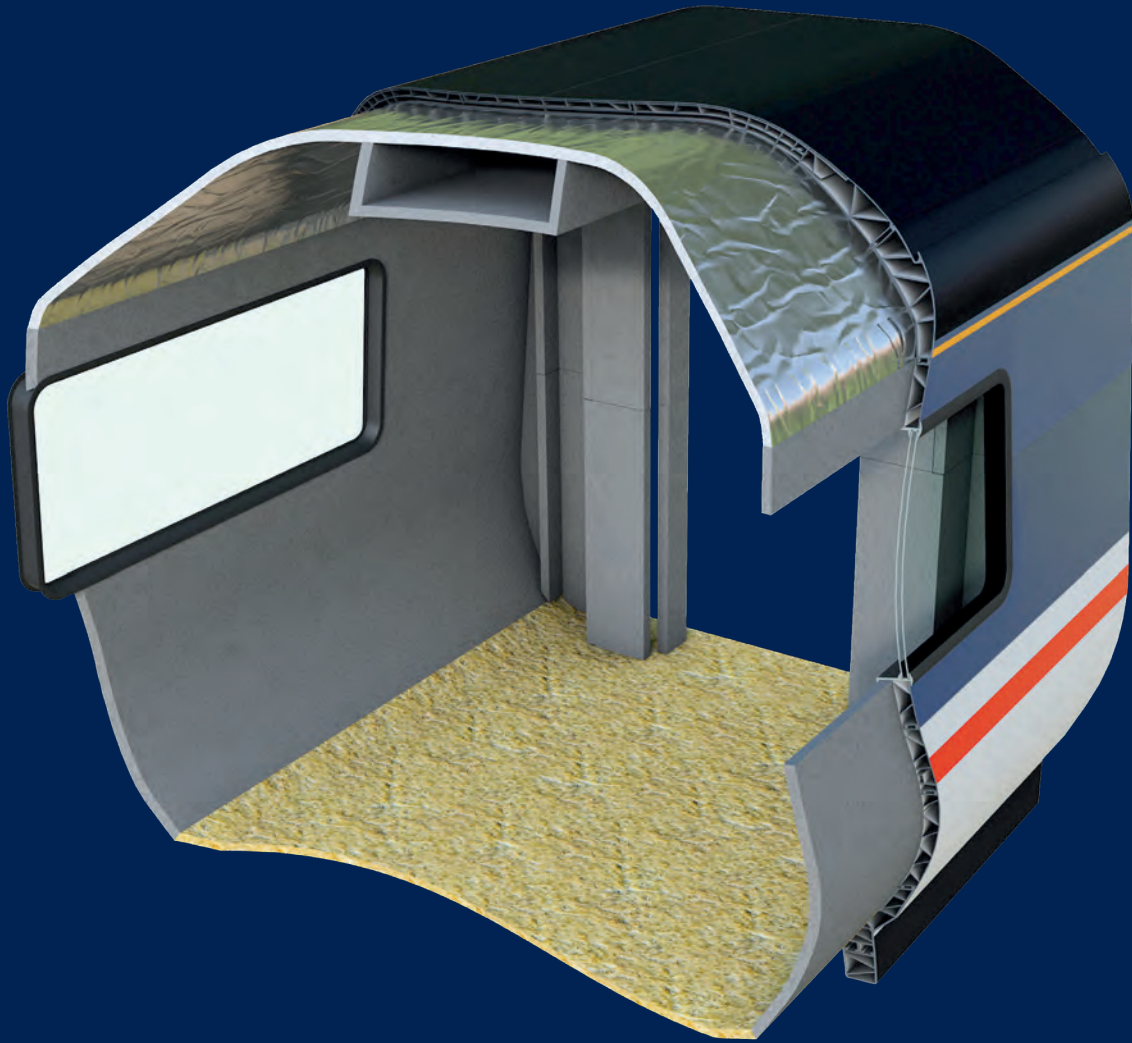

7 July 2022

9.30am to 3.30pm

Organised by railway people, for railway people

## ON THE RIGHT TRACK FOR ACOUSTIC, THERMAL AND PASSIVE FIRE PERFORMANCE

With over 45 years' experience, Siderise passive fire and acoustic insulation systems provide high-performance solutions for the rail industry without compromise. Coaches built incorporating our rigorously tested thermo-acoustic insulation, benefit from improved sound absorption, reduced sound transmission and improved reaction-to-fire performance to EN45545-2. The result, all-round comfort and peace of mind – from roof, to floor, to walls.

- **Exceptional thermal and acoustic performance**
- **Thermo-acoustic insulation rail products are independently tested for fire, smoke and toxicity performance (to EN45545-2)**
- **In-house acoustic engineers to assist with product selection**
- **Wide range of products including vibration damping materials**

# A look ahead to RSN 2022

Your networking opportunity awaits

**R**olling Stock Networking (RSN) looks set to be another sell-out show in 2022, as it returns to Derby Arena on Thursday, 7 July.

The popular trade rail event – organised by railway people, for railway people – provides unrivalled exhibiting and networking opportunities for rail professionals.

More than 145 exhibitors are already signed up, including new train builders, tier 1 and 2 companies, many technical product providers and innovative micro companies, to name a few.

It means the show – which is free to attend – promises to be a very diverse and comprehensive attraction for both exhibitors and visitors.

Joint event organiser Kevin Parker said: “The show has already attracted the great and good with new builders, the heavy maintainers, systems integrators and depot equipment suppliers all taking their places, as anticipation builds for a great day of exhibiting and networking.

“We firmly believe that unlike any other show, RSN offers a community feel for the rail industry, where visitors and exhibitors are enthused by the buzz the event provides and the relaxed but efficient networking experience, as contacts are made and relationships are formed.

“RSN 2022 is a day well spent and we look forward to welcoming everyone.”

Outside of the main exhibition, there's also a rich programme of supporting events.

The EXPO, RBD conference – which returns for a third year – and the additional trade events all respond to the need for the industry to win orders and succeed in a sector which is constantly evolving.

“Don't miss this unique networking opportunity”

Kevin Parker, joint event organiser

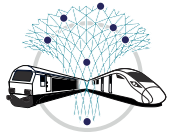

This year, Rail Business Daily will host a comprehensive business support area as an industry first for RSN; offering delegates and exhibitors the opportunity to access high quality rail business support and advice.

Its 'I zone' – Inform, Inspire, Impact – business support area will take place in the auditorium area above the exhibition floor. Read more about this on page 7.

The Rail Forum will also be holding its Annual General Meeting at the show, which is ideal for its members who will be able to visit the show and take in the conference and the other events, prior to the AGM, all in one day.

Further events are also being organised by the Department for International Trade and by the Railway Industry Association (RIA) which all add to the attraction.

Visitor registration is now live. To register, visit [www.rsnevents.co.uk](http://www.rsnevents.co.uk) and click on the 'For Visitors' tab at the top.

**DIAMOND RAIL SERVICES**

Turnkey  
**Refurbishment,  
Engineering and  
Asset Management**  
services to the railway industry

Diamond are a dynamic and growing business with a broad portfolio of service offerings, delivering high-quality value-added services throughout the rail sector

**DELIVERING FOR YOUR CUSTOMER, TOGETHER**

Talk to us about your specific project requirements and let our dedicated team develop your ideal solution...

# DIAMOND RAIL SERVICES

**D**iamond is a specialist delivery partner for all your rail needs. Our growing team has a wealth of experience, not only in engineering, logistics and project management, but also customer service delivery in the railway industry. This experience underpins our ever-growing range of service offers, developed to address both current, and future challenges facing the railway industry.

### Why visit our stand?

Take the opportunity to meet our team and learn all about our innovative and collaborative rolling stock solutions that we are able to offer.

From day-to-day asset management, such as cleaning and service quality rectifications, through to periodic light and heavy refurbishment, including mechanical component reverse engineering and repair, come along and have a chat about how we can deliver for your customer, together. //

# Take your seat at the RBD I"CONFERENCE at RSN 2022

**T**his year, RBD's conference – The IConference - is designed to Inspire, Inform, Impact and offer Insight to help you grow your business.

Our carefully selected leading industry professionals will share their knowledge, experiences and innovative working practices during a series of sessions throughout the day.

The speakers will focus their presentations on overcoming challenges and taking opportunities to win work.

With speakers in procurement roles from several well-known rail companies, the presenters will undoubtedly have something of interest to showcase for all delegates.

RBD will announce the speakers in the coming weeks via railbusinessdaily.com.

The conference is being hosted by industry writer and commentator Nigel Wordsworth, who will also co-ordinate a 15 minute question and answer session. //

// The RBD conference is free to attend and you do not need to book a conference seat.

## Introducing the I"ZONE to help YOUR business grow

Inspire. Inform. Interact.

**R**B D will host its first-ever I"zone – a comprehensive business support area – at RSN, to offer businesses support and advice on how to grow and win work.

Specialists from each area of RBD (the UK's largest rail media company) will be on hand for individual meetings in the dedicated area above the main exhibition hall.

RBD is offering this unique opportunity to meet with the:

### RBD Media:

Learn more about how your business could reach up to 73,000 people per day via our daily newsletter and how our leading online news site offers more than 1.2 million opportunities to be seen every month.

### RBD Advisory:

Ideal for those looking to win more work, find new opportunities for business or access specialist industry support.

### RBD Marketing:

Find out how the UK's largest rail media business can help you raise your business profile in rail.

### RBD Community:

Discover the power of membership to the RBD Community for profile raising opportunities, networking, b2b matchmaking and market intelligence/insight.

### RBD Rail Recruiter:

Book your demo of the new rail jobs board offering recruitment solutions that match people to opportunities in a new and improved way. Find out why we are different and how we can help. //

// Book your individual appointment at RSN with our industry specialists

## Hydram Engineering Ltd

Stand: J5

As one of the UK's leading subcontract metalwork companies, Hydram Engineering specialises in small to medium-sized fabrications predominantly made from sheet metal and tube, much of it powder coated, and often coming together as assembled components ready for lineside delivery.

Hydram's capacity is centred on hi-tech processes such as laser cutting, CNC punching and bending, with extensive welding facilities, including robotic cells, a power press section, three paint plants and a large area devoted to the assembly of components and cabinets. Quality is central to the business.

Hydram is certified to the following standards: ISO 9001 Quality Standard, ISO 14001 Environmental Standard, ISO 3834-2 Welding Standard, BS EN 15085-2 Class 1 CWRVC Welding Standard, DIN 6701 Rail Bonding Standard, ISO 45001 Health and Safety Standard, Cyber Essentials.

[www.hydram.co.uk](http://www.hydram.co.uk)

**E**stablished in 1977 and employing more than 300 people in its 115,00sq ft facility, Hydram Sheet Metalwork is one of the largest sheet metal fabrication companies in Europe.

It offers the full range of subcontract engineering services including laser cutting, CNC punching, panel bending and folding, tube laser cutting and tube bending, fabrication, powder coating, wet painting and assembly from its site in Chilton, County Durham, UK.

### Why visit our stand?

Come visit our stand to discuss your metalwork requirements for rolling stock and infrastructure //

## Stand A7

### MULTIPULSE

#### The rail industry's partner of choice.

Multipulse at its core, supports the legacy and maintenance of trainborne signalling and communications systems. In the past the company has manufactured for LUL Connect, TPWS, GSMR and RETB and continues to focus on providing ancillary spares for this technology.

#### Key Services:

- GSM-R UPS battery and handset refurbishment
- GSM-R radio software upgrade
- RETB and GSMR spares held in stock
- Drivers Control Panel (DCP) emergency stop covers
- Site works
- Test equipment

#### Why visit our stand?

Come and meet the team at Stand A7, we can discuss your upcoming requirements and how we can become a key part of your maintenance programmes. //

# New jobs board launched to revolutionise rail recruitment

“Our aim is to become the go-to jobs website for the entire rail industry,” says Dean Bruce, as he launches RBD Rail Recruiter – a new jobs board exclusively for the rail sector

**A** revolutionary new jobs board which will transform the rail recruitment market is now live.

At a time the industry needs it most, RBD Rail Recruiter has been launched in direct response to the sector’s call for a fresh, new and different approach to modernise the jobs market.

The innovative platform — [www.rbdrailrecruiter.com](http://www.rbdrailrecruiter.com) — will allow rail organisations to find the right candidates and help job seekers easily find their dream job.

RBD Rail Recruiter is the latest venture to be launched by The Business Daily Group of companies, which includes the hugely popular [railbusinessdaily.com](http://railbusinessdaily.com).

## Huge investment

RBD Rail Recruiter will be led by Dean Bruce who joined Rail Business Daily in 2020, bringing 21 years of marketing experience to the rail industry’s media and profile-raising business. He is now taking on the important task of developing this new product which complements RBD’s existing services.

He said: “With upcoming investment — such as the Integrated Rail plan — there’s a huge opportunity for those already in rail and those wanting to pursue a career in rail.

“So now feels like the perfect time to launch a rail sector-specific jobs board to help to connect people with rail jobs and those opportunities.”

Dean will be attending RSN and can be met at the RBD stand where he will explain more about how Rail Recruiter will work.

He added: “We want everyone working in the rail industry to pursue a successful career and to make best advantage of the opportunities available, and we want businesses working directly in rail and in the wider supply chain to be able to find the talent they need to grow and prosper.

“Rail Business Daily strives to be a force for good in the rail industry and this philosophy is shared by RBD Rail Recruiter as we connect rail talent with rail businesses.

“Our aim is to make things as easy as possible. Whether you are looking to fill a vacancy or find a job we want to make it simple and straightforward.”

Job-seekers are already signing up for an account at [www.rbdrailrecruiter.com](http://www.rbdrailrecruiter.com) which allows them to make applications

at the touch of a button. They can also sign up for job alerts to avoid missing out on the latest opportunities.

For job-seekers, one of the huge advantages will be the ability to use the website to create a bespoke and detailed CV. The platform will also offer regularly updated career advice to help them succeed with their applications.

RBD Rail Recruiter will draw on the wealth of experience and contacts the RBD expert team have, ensuring organisations and job-seekers are in the best position to succeed.

“There is a clear gap with insufficient provision existing within the sector, and current suppliers are out of touch.

“I am regularly hearing the right candidates aren’t being found quickly enough,” added David.

RBD Rail Recruiter is an independent business that will work closely with existing Rail Business Daily brands to reshape how recruitment works in the railway industry.

## Uniquely positioned

Dean added: “Recruiters can add and change jobs quickly, use advanced filters to find and connect with the talent they are looking for and they can set up candidate alerts to make sure they are talking to the best candidates as soon as they become available.

“And we are uniquely positioned to speed up the recruitment process by giving vacancies an extra boost in the highly popular Rail Business Daily on and offline publications.

“Our aim is to become the go-to jobs site for the entire rail industry, a single source where all of the current rail industry jobs and job seekers can be connected.”

**“**Rail Business Daily strives to be a force for good in the rail industry and this philosophy is shared by RBD Rail Recruiter **”**

David McLoughlin, chief executive of Rail Business Daily, said RBD Recruiter will make an instant difference to the rail jobs market.

He said: “Our ambition in creating [railbusinessdaily.com](http://railbusinessdaily.com) in 2017 was to be a force for good for the railways, championing the great businesses and people who make such a positive difference in keeping passengers and freight on the move across Britain.

“RBD Rail Recruiter is the next chapter in our service to the railway, coming at a time when the jobs market is tough. The platform has been developed after discussion and input from recruiters and job-seekers, so it’s a jobs board developed in direct response to the needs of the modern world.”

**“**If you have current recruitment needs and want to talk to Dean please call 01924 665960 or email [dean@rbdrailrecruiter.com](mailto:dean@rbdrailrecruiter.com) Visit us at: [www.rbdrailrecruiter.com](http://www.rbdrailrecruiter.com) Alternatively you can meet Dean at RSN in the I Zone. **”**
